

Wanda Wilkerson has served in a leadership position in the Center for Excellence and Innovation at Oncor since 2012. Since January, 2025 she has been the Senior Manager of the Quality Control organization. In this role, she leads a team focused on gathering and reporting industry benchmarks, supporting data-driven decisions through operations reporting, and encouraging, supporting, and celebrating innovation at Oncor.

Prior to this, she was in the Continuous Improvement Manager role for 12 years. A certified Lean Six Sigma Black belt herself, Wanda had the privilege of leading a team of Lean Six Sigma professionals in support of Oncor's culture of continuous improvement. Her team provided Lean Six Sigma training and coaching, along with project management leadership and support.

Wanda received her BBA degree, with a major in Accounting, from Texas State University in San Marcos, TX. She began her career in sales-tax accounting and spent many years in internal audit and general accounting roles. After working in the electric and utility supply industry for 10 years, Wanda joined Oncor Electric Delivery in 2001. She held various accounting positions, at the Dallas, TX corporate office, prior to her move to the Center for Excellence and Innovation in 2008.

As a "military brat", Wanda learned early on that relationships are the key to success, along with a willingness to work hard and to see both the big and small picture. Wanda's involvement in EUCG's T&D Committee, since 2008, has afforded many opportunities to network and develop relationships with members from each committee area. Her 10-year commitment to the EUCG Planning Committee provided her valuable insight into the inner-workings of EUCG. Wanda joined the EUCG

Board of Directors in 2022, serving as the Secretary. In 2023, she was appointed to the Vice President position on the Board, where she has continued to serve into 2026.

In addition to her experience in the utility industry, Wanda has worked in hospitality, printing, and staffing. Outside of work, Wanda is involved in city and school board activities in her community and has served on the Growth Management Committee for the Midlothian ISD and is the current Board Secretary for Midlothian Economic Development. Wanda enjoys home improvement projects, outdoor activities, traveling, and cheering on her grandson and his baseball team!
