Fossil Generation Committee

“As a member driven trade association, EUCG is a unique place where the members decide what studies are to be performed and what information is shared. It is unlike any other benchmarking and networking group and my EUCG colleagues have become trusted peers and friends.”

— Steve Royall, PG&E

About Us

The Fossil Generation Committee is the leading industry resource for combined cycle and conventional steam, coal, oil, and gas generation benchmarking and best practice information. The committee is a cost-effective forum where members share best demonstrated practices in coal, oil, and gas fleet generation. In addition, the opportunities to network with industry peers is a valuable part of EUCG membership and helps industry professionals deliver additional value to their organization. With workshops in the Spring and Fall each year, committee members get together to learn and network with their peers in interactive educational sessions.

Benefits

Network Opportunities

Regular opportunities to network with other vertically integrated utilities across North America and internationally in a confidential and safe environment. True one-to-one connections and real relationship development with other companies and individuals that are facing the same situations as you and your company.

Forums

Active participation in a collaborative forum for the discussion of best practices and lessons learned on topics identified by members.

Spring and Fall Workshops

Facilitate learning and exchange ideas with peers at two workshops. Discuss current industry issues, best practices, and lessons learned on topics identified by members.

Resource Library

Access to members-only online Resource Library where presentations by members are stored for other members to use for their benefit.

2023 Fossil Membership Fees

Data Member Annual Fee <i>Those members who provide data</i>	\$6,000
Forum Member <i>Owners or co-owners who do not operate commercial plants</i>	\$6,000 per owner
Alliance Member <i>Related industry organizations or businesses</i>	\$7,600

- Maintenance
- Operations
- Safety
- Staffing
- Technology

The Fossil Committee is a part of EUCG, Inc., a non-profit trade association that has brought utility companies together to participate in studies, learn from each other, and share best practices since 1973. EUCG's vision is to be the leading association of global energy organizations enabling our members to optimize resources, drive performance excellence and deliver value to customers.

Southern California Edison (SCE) benchmarks with the EUCG Fossil Committee for a number of reasons including member utility driven benchmark topics, ability to network with peer utilities through meaningful workshops, and validating alignment between SCE's operating models to industry best practice.

—Ruben Soto, Business Process Improvement Sr. Advisor, Southern California Edison

Current Member Companies As of May 30, 2023

Lower Colorado River Authority Tennessee Valley Authority
NB Power
Omaha Public Power District
PG&E

EUCG Mission

EUCG's mission is to promote end-to-end energy production and delivery excellence by:

- Providing relevant, accurate and timely benchmarking information on cost and performance
- Promoting outstanding cross functional networking opportunities
- Establishing a forum for direct exchange of best practices and lessons learned
